

GRI hosts first annual meeting of National Advisory Committee

The Gallaudet Research Institute (GRI) hosted the first annual meeting of its recently constituted National Advisory Committee on Nov. 16 and 17 in "Ole Jim."

Appointed by President King Jordan, the 14 committee members were chosen on the basis of demonstrated leadership within the broad range of constituent groups interested in the GRI's deafness-related research programs.

The committee includes scientists in relevant fields, representatives of education and rehabilitation programs, leaders in organizations both by and for deaf and hard of hearing people, and representatives of families of deaf children. Many of the advisers are themselves deaf or hard of hearing.

Advisers in attendance at the first meeting were Dr. Glenn Anderson, Dr. Thomas Humphries, Dr. Alan Hurwitz, Dr. Barbara MacNeil, Winfield McChord, Dr. Walter Nance, Dr. Jerome Schein, Dr. Ted Supalla, Roberta Thomas, and Dr. Win Tillery. Special guests included Dr. Michael Rodda, the GRI's international visiting scholar from Canada, and Dr. Linda Delk of Gallaudet's Pre-College Programs.

Dr. Michael Karchmer, dean of Graduate Studies and Research, pointed out that the GRI has not benefited from the counsel of an official advisory board for five years and will need to get accustomed to the process of considering and using such advice wisely.

Dr. Jordan, who stopped by briefly during the proceedings, thanked the advisers for their willingness to help Gallaudet "see itself from the outside as well as from within."

At the meeting, directors of various GRI units summarized current and upcoming deafness-related GRI research activities. Committee members asked questions and offered comments from various perspectives.

The presentations by GRI directors conveyed the extent to which the GRI's broad-based programs of research are providing needed factual and issue-related information to a diverse constituency in spite of time, budget, and staffing constraints.

Brenda Rawlings of the GRI's Center for Assessment and Demographic Studies, Dr. Judith Harkins of the Technology Assessment Program, and Dr. Kathleen Shaver-Arnos of the Genetic Services Center reported on how their units compile and analyze deafness-related data in their respective disciplines, then make their findings available to interested constituent groups through books, articles, conferences, workshops, and other avenues of dissemination.

Dr. Donald Moores of the Center for Studies in Education and Human Development described his unit's long-range, ongoing studies of parent-infant interaction, literacy development, and secondary education programs as

Physics Department Chairman Gerald Daly (right) talks with (clockwise) Alan Soucy of Martin Marietta Corporation, students Nathaniel Davis and Russell Lall, and Ron Rivenberg of Martin Marietta after accepting the corporation's \$10,000 check to support Gallaudet's Computer Engineering and Electronics Engineering Technology Programs.

CFC contributions short of goal; employees can still make pledges

Gallaudet's 1990 Combined Federal Campaign (CFC), which began Oct. 16, had raised \$31,633 as of Nov. 27. This is only about \$1,300, or 4 percent, short of the University's goal of \$33,000.

"I think the CFC has become more of a reality for people because a few disasters have occurred close to home as opposed to in foreign countries," said LaVarne Hines, director of Administrative and Community Services

and vice chairwoman of the campaign. "It's become more evident that we need to support organizations that are funded through contributions to the CFC," she said.

According to Hines, 300 members of the Gallaudet community have contributed to date, and 25 of those donated 1 percent of their salaries, thereby qualifying for CFC's Eagle Award pin.

"I want to thank the community for its overall support of the campaign," she said.

According to CFC's brochure, the campaign spends approximately 4 percent of its funds on fundraising, while individual charities often pour up to 25 percent of their funds back into fundraising activities.

At a board meeting of a local charity that recently applied for CFC funding, Hines saw the CFC at work firsthand. CFC inspectors examined the program, its goals, and its accounts to ensure that the funds would be used effectively, she said.

"Although the response has been good," said Hines, "I'm certain there are some pledge cards sitting on people's desks because they forgot to turn them in and think they've missed the deadline. If those people would turn their cards in, we could reach our goal."

Keyworkers throughout the campus are still accepting contributions to CFC, which represents more than 1,000 local and foreign charities this year. Individuals can also take their pledge cards and contributions to the Office of Administrative and Community Services in College Hall, Room 4.

Tour of renowned illustrator to include Kendall Gallery

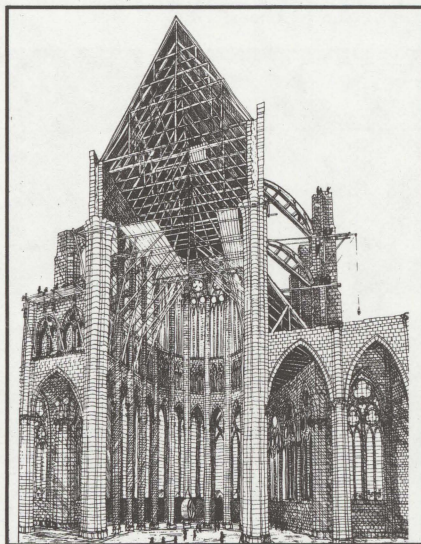

Gallaudet's Kendall Gallery has been selected as the only Washington, D.C., stop on a national tour of works by renowned book author and illustrator David Macaulay, whose unique approach to using architectural design in his works has made him popular with audiences of all ages from around the world.

"We were extremely fortunate to get hold of [the exhibit]," said KDES art instructor Phil Bogdan, who is coordinating the Feb. 12-22 show. "It's an extremely important exhibit. Macaulay's work is fascinating; he's really a genius."

All of Macaulay's books basically follow a "how things work" theme. *Pyramid*, for example, depicts step-by-step how the mighty shrines to leaders of bygone civilizations were constructed. The same technique is used in *Cathedral* and in *Castle*. Books like *City* depict the painstaking planning and construction of an ancient Roman city; *Underground* shows the intricate mechanisms below urban streets that are the pulse of modern cities.

Macaulay also takes some satirical

shots at architecture through the ages in *Great Moments in Architecture* and gives a similar treatment to the accom-

This drawing is from author/illustrator David Macaulay's book *Cathedral*. Macaulay's works will be shown in Kendall Gallery Feb. 12-22.

plishments of society in general in *Motel of the Mysteries*.

Macaulay's inspiration for his books evidently comes from his early training in architecture as a student at the Rhode Island School of Design, which gives his work such an in-depth perspective, much like the renderings of architect's blueprints.

Time magazine has said of Macaulay that "what he draws . . . he draws better than any other pen-and-ink illustrator in the world." His other merits include six *New York Times* Best Books of the Year awards, plus top honors from *The Boston Globe*, the *School Library Journal*, and the New York Academy of Sciences.

Bogdan said that Macaulay's show at Kendall will feature 36 original prints. The gallery will be open from 9 a.m. to 4 p.m. weekdays, with an opening and reception on Feb. 12 from 2 to 8 p.m.

"I think people are going to be overwhelmed by what they see," Bogdan said. "There's not anyone who will come to this show who won't learn something."

Among Ourselves

Dr. Marin Allen and Mary Lou Novitsky of the Department of TV, Film, and Photography presented papers at the European Broadcast Union's Seminar on Deaf Television in Stockholm, Sweden, Sept. 16-26. Allen and Novitsky also met with staff from the BBC's "See/Hear" and "Discovery/Europe" television programs.

Matt Searls, a placement counselor in the Career Center, successfully defended his doctoral dissertation, "A Study of Parental Deafness as a Factor in the Development of Self-Concept in Samples of Deaf and Hearing College Students," at The American University on Oct. 11.

President I. King Jordan received the Arthur S. Myklebust Distinguished Service Award for his "special commitment to Deaf America" at the Oct. 20 inauguration of Dr. Frank Turk as the 13th superintendent of the South Dakota School for the Deaf in Sioux Falls, S.D. Myklebust was involved with the school for 30 years, and his brother, Helmer, was a well-known researcher on deafness. His sister, Esther Simonson, who presented the award, was also Turk's sixth-grade teacher.

Dr. Richard Meisegeier, director of Gallaudet's Honors Program, conducted a colloquium on setting up and running summer programs for gifted pre-college students and chaired the "Study Abroad Table for the Idea Market" at the 24th Annual National Collegiate Honors Council (NCHC) Conference held in New Orleans, La., Oct. 25-29. Meisegeier serves on both the NCHC Pre-College Gifted and Study Abroad committees and is serving his third year as executive secretary/treasurer for NCHC's Northeast Region. He was accompanied by honors students Allison Schlesinger, who is president of Gallaudet's Honors Student Organization and one of three student representatives on the region's Executive Board, and Jerri Lynn Dorminy.

Lynne McConnell, a writer in the Publications and Production Department, completed George Washington University's master's-level Publication Specialist Certificate program in June and received her certificate at a ceremony on Oct. 27.

Dr. Bruce White's proposal that the 1991 conference of the Research Society for Victorian Periodicals be held in Washington, D.C., was accepted at its recent meeting. White, an assistant professor in the English Department, will also publish his annual annotated bibliography for those researching Victorian periodicals in the next issue of the society's journal, *Victorian Periodicals Review*.

Dr. Deborah Sonnenstrahl, chairwoman of the Art Department, spoke as part of a program on "Enabling the Disabled: Making Museums Accessible to Handicapped Visitors" at the National Docent Symposium held Nov. 7 in Washington, D.C. Sonnenstrahl discussed barriers that deaf people face in museums and suggested techniques for

tour guides to use when working through an interpreter. The symposium was sponsored by the National Gallery of Art.

Jan Skrobisz, a graphic artist in the Publications and Production Department, won the Council for the Advancement and Support of Education's 1989 "Best of Show" award for his cover design and poster for *Gallaudet Today's* special issue on technology in 1988, "Technology: Changing the Face of Communication and Research." Skrobisz's cover and poster also won two other awards in the past year.

The Psychology Department held a colloquium featuring Gail Isenberg, a doctoral student in psychology at the University of Massachusetts, on Nov. 9. Isenberg described her research in "Direct and Indirect Hypnotic Suggestions with Deaf and Hearing Subjects."

Dr. Larry Stewart, an associate professor in the Department of Psychology, presented "Back into the Future: The Challenge of Today and Tomorrow in Rehabilitation, Mental Health, and Deafness" at the fall luncheon meeting of the Metro Washington Chapter of the American Deafness and Rehabilitation Association held at "Ole Jim" on Nov. 30.

Dr. Judith Harkins, director of the Gallaudet Research Institute's Technology Assessment Program, spoke on "Computer-Assisted Notetaking and other Visual Technologies" at the November meeting of the Washington Area Group for the Hard of Hearing held in Bethesda, Md. Harkins also gave a presentation in October on technology assessment at the Southern Regional Institute on Deafness in Clearwater Beach, Fla.

John Day, the University librarian, was elected secretary and financial officer of the International Federation of Library Associations and Institutions' Section for Libraries Serving Disadvantaged Persons in Paris, France, at its 55th congress. The federation also accepted Day's draft of international standards for library services for deaf people and will prepare it for publication. Day was also elected this year's chairman for the American Library Association's Library Services to the Deaf Forum.

Catherine Moses (left), head of the new MSW program in the Department of Sociology and Social Work, greets guests at an open house for the program Nov. 10 in Washburn Arts.

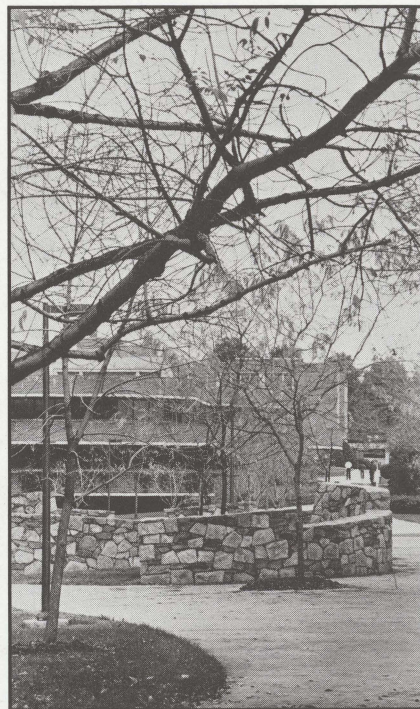

(FROM LEFT) Drs. Ted Supalla, Tom Humphries, and Glenn Anderson, members of the Gallaudet Research Institute's new National Advisory Committee, observe presentations by GRI directors during the group's first meeting Nov. 16.

Research directors discuss activities

continued from page 1

affected by deafness. Dr. Carol Erting of the Culture and Communication Studies Program discussed her unit's studies of cultural issues related to deaf communities worldwide. Dr. Sally Revoile of the Center for Audito-

A late fall scene of the Learning Center and wall in front of Ely Center shows the trees almost bare of leaves.

ry and Speech Sciences described her unit's efforts to find ways to enhance hearing impaired people's perception of speech.

The advisers raised questions about the implementation of pilot or model programs for studying proposals of untried educational methods devised by GRI researchers. They emphasized the need for a sustained research focus on such implementation.

Repeated discussions focused on a "deficit" vs. a "cultural/linguistic" model of deafness-related research. One adviser suggested that a "cognitive" model be added to this picture.

Some advisers expressed concern about commonly misinterpreted terms often used by deafness-related researchers—for example, "prelingually deafened" (as opposed to "born deaf" or "early deafened") and "communication" (as opposed to "sign language" or "spoken language").

Some advisers asked if gaps in the range of GRI research programs are inevitable or not and, if they are inevitable, why this is the case. One adviser suggested that the committee might eventually try to help the GRI formulate principles for determining an optimal range and balance of research programs.

Gallaudet University is an equal opportunity employer/educational institution and does not discriminate on the basis of race, color, sex, national origin, religion, age, disability, or veteran status in employment or admission to its programs and activities.

'Ole Jim' menu

Friday, Dec. 8
Noon-1:30 p.m.

MEXICAN

Enchiladas with Cheese
or Chili
Tossed Salad
Mexican-style Rice
Refried Beans
Sheet Cake
Iced Tea, Coffee

This is the last week that the Friday lunch will be held in "Ole Jim" before Winter Break. The lunch program will probably continue next semester, and more information about the program will be printed later.

School of Communication celebrates 10th anniversary

Gallaudet University's School of Communication this year is celebrating its 10th anniversary. Throughout the academic year, the school will offer a variety of scholarly and creative activities and special events symbolic of the work of the faculty, staff, and students who have made this milestone possible.

Activities to commemorate the 10th anniversary include publication of the history of the School of Communication; information exchanges between faculty, staff, and students about communication issues and careers in communication; and book-signing events for faculty authors Ceil Lucas (*Sociolinguistics of the Deaf Community*) and Emmy Award winner Gil Eastman (*From Mime to Sign*).

In addition, the faculty/staff forum

will continue, and a new graduate/undergraduate student forum will begin. The opening of a Theatre Arts Hall of Fame is scheduled, faculty/staff scholarly and creative productions will be exhibited in the Learning Center, and a School of Communication newsletter will be initiated. A final fundraising banquet is also under consideration.

Special events will be advertised on the 10th Anniversary commemorative poster designed by Jan Skrobisz, an artist in the Publications and Production Department.

"It is with renewed vigor that the School of Communication is building upon a tradition of excellence, commitment, achievement, and success," said Dr. Njeri Nuru, dean of the School of Communication.

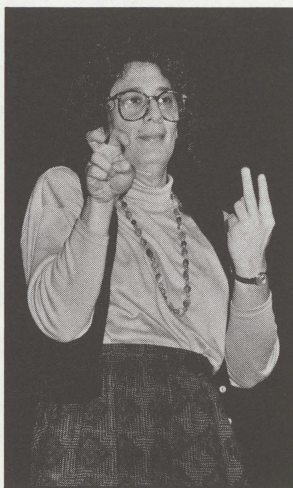

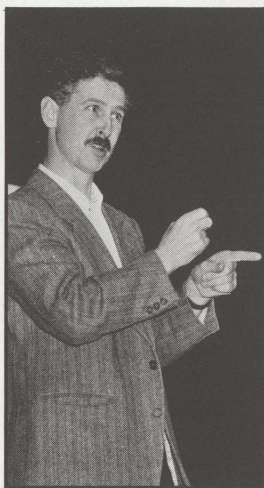

Last year was a prime example, she said. The school saw the initiation of a new master of arts program in interpreting and the first graduating class from the new master of science program in speech-language pathology. "FANTASTIC," a new children's program developed for television, premiered, and Dr. Marin Allen and Mary Lou Novitsky of the Department of TV, Film, and Photography won local Emmy Awards for the "Deaf Mosaic" special on the Deaf President

Now protest. The play "Telling Stories," written and directed by Dr. Bill Moses, won three international awards.

It was also the year of the Sign Communication Proficiency Interview (SCPI), strong ASL advocacy, and the paper "Unlocking the Curriculum," which opened discussion about bilingualism and access in deaf education and attracted national attention.

Last year, major enrollment in Communication Arts doubled, the Assistive Devices Center received firm funding, and a school-wide leadership development initiative was designed to promote terminal degrees in communication that should increase the number of deaf faculty in the school.

"It is within this spirit of accomplishment that the School of Communication continues its quest for unprecedented excellence," Nuru said. "The dean and the Council of Chairs have accepted with confidence and enthusiasm the challenges of enhancing its existing programs, forging new directions through graduate education, developing specialty areas within undergraduate majors, and broadening its constituency and contribution to the communication disciplines through teaching, research, service, and outreach."

As part of the School of Communication's 10-year celebration, *Linguistics and Interpreting* faculty (from left) Dr. Ceil Lucas and Clayton Valli, and Lynn Jacobowitz of *Sign Communication*, present "Language Contact in the Deaf Community" on Nov. 13.

Upcoming conference here to focus on mathematics learning difficulties

Deaf students have a number of unique learning difficulties, but many of their problems are also common to hearing people. It is with this idea in mind that a conference in mathematics for educators of both hearing and deaf students is being held in Washington this Feb. 16 through 18.

Sponsored by Gallaudet's Pre-College Programs and the Research Council for Diagnostic and Prescriptive Mathematics (RCDPM), the Conference

on Mathematics Learning Difficulties is a unique collaboration between educators of both hearing and deaf populations, from primary grades through the university level, according to conference chairman Dr. Charles Dietz, an instructor in Gallaudet's Postsecondary Enrichment Program and a member of RCDPM.

Dietz also feels that the conference can make educators in general become more aware of the needs of deaf learners. "Deaf and hearing students both have very similar problems in math. Teachers of hearing students, though, have very different teaching materials than teachers of deaf students. And since many deaf students are getting mainstreamed and lots of teachers in general know little about teaching deaf people, a conference like this can spread the word of what the needs of [deaf] students are."

In conjunction with the conference, Pre-College Outreach is sponsoring an orientation to deafness program on Feb. 15 for university educators nationwide who prepare teachers of mathematics.

The keynote speaker for the conference will be Dr. David Martin, dean of the School of Education and Human Services. Other speakers will be Paul Cobb, associate professor of education at Purdue University, and Hilda Borko, associate professor of education at the University of Maryland.

For more information about the conference, or to register, call x5340 or write RCDPM/Gallaudet Conference, KDES Pas #6.

SAC elects four new members

Four employees were elected on Nov. 16 to serve on the Staff Advisory Committee (SAC) for two-year terms.

The new SAC representatives are Pat Thompson as the President's Office; Pat Yates, from MSSD's Special Opportunities Program, representing Pre-College; Lloyd Ballinger of Networks and Communications, representing Administration and Business; and Ethylyn DeStefano of Sign Communication, representing Academic Affairs.

More than 120 people voted for these four positions, a 50 percent increase in voters over the previous year. The elections were very close, and SAC representatives hope the other candidates will run again in the future.

The Staff Advisory Committee serves as a liaison between staff members and campus policy-making bodies, helps review and develop new staff policies and procedures, and meets regularly with President I. King Jordan.

December 4, 1989

South African deaf students gather around Frances Parsons on her 1981 Peace Corps visit to the township of Soweto. Parsons urged the South African government to use sign language in educating deaf students.

Parsons needs information for library about deaf Peace Corps volunteers

A young Filipino girl recently told Frances Parsons, "If it had not been for you and other deaf Peace Corps volunteers, I would not be here at Gallaudet!"

Parsons, who traveled through Africa and the Far East during the summers of 1978 and 1979 as the Peace Corps' first deaf participant/traveler, is an associate professor of art and the coordinator of international history collections at the Gallaudet University Library.

Parsons began working with the Peace Corps in 1974 and soon started a program that used deaf volunteers to work with deaf people in underdeveloped countries. Parsons still continues her work with the Peace Corps and has helped many deaf volunteers serve the corps.

She was shocked, however, to find no records at Gallaudet about deaf Peace Corps volunteers. "They con-

tributed so much and there is no record," she said. "So my plan is to look, to chase stories of deaf Peace Corps volunteers."

To that end, Parsons is searching the Peace Corps' files for information on deaf volunteers. She is also searching the Gallaudet campus for volunteers, their friends, or relatives and asking that they write her about their experiences so she can establish a collection for the library.

Information about deaf Peace Corps volunteers should include the volunteers' names; when, how long, and in which countries they served; any rewards, frustrations, or culture shock they experienced; their hometowns; when they became deaf and whether their families were deaf or hearing; and their colleges and majors. Responses should be sent to Parsons at the Merrill Learning Center, Room LW 51.

On The Green 3

Announcements

"A Day in the Life of a Local Senior Center" and "AARP [American Association of Retired Persons] and its Resources," are the topics of a Holiday Aging Interest Luncheon that will meet in the "Ole Jim" Conference Room this Thursday, Dec. 7, from 11:30 a.m.-1 p.m. Guest speakers will be Catherine Moses, an associate professor in the Department of Sociology and Social Work, and Carol Cober, of the Mental Health Division of AARP. Everyone is invited. Holiday refreshments will be served.

Open season for the Federal Employees Retirement System (FERS) Thrift Savings Plan (TSP) is under way. This is a time that all regular employees hired on or before June 30, 1989, can enter the plan or change their deductions. The deadline for open season is Jan. 31. For more information, contact benefits/employment specialist Elaine Vance, College Hall, Room 7 or 13B, x5111.

To honor Gallaudet's 125th anniversary, the theme of the 16th Annual Deaf Heritage Week, which continues through this Saturday, Dec. 10, is "Celebrating the Heritage of Higher Learning." The public libraries of the District of Columbia, Maryland, and Virginia have a number of activities and displays honoring deaf culture and history. The highlight of the week will be a program called "The District's Deaf Way," which will be held Dec. 10 at 10 a.m. at the Martin Luther King Memorial Library, 901 G. St. NW, and will feature storytelling by Janet Bailey, president of Sign Language Associates. For more information, call 727-1186 (V), x2255 (TDD).

The Gallaudet community is invited to the University's 5th Annual Holiday Bazaar this Wednesday, Dec. 6, from 10 a.m.-7 p.m. in Ely Center. To reserve a booth, send checks: \$10 student, \$20 student organization, \$20 faculty/staff/alumni, and \$50 business, to Muriel Strassler, Holiday Fair, University Center. For more information, call Strassler at x5144.

Gallaudet staff will not work Monday, Dec. 25, through Monday, Jan. 1, because of the Winter Break holiday. Staff will report back to work on Tuesday, Jan. 2. Due to the holiday, *On The Green* will not be published on Dec. 25 or Jan. 1.

A percentage of funds raised at the Feb. 8 Washington Bullets basketball game against the Los Angeles Clippers, to begin at 7:30 p.m. in the Capital Center, Largo, Md., will go to the National Association of the Deaf. The game will be preceded by MSSD's basketball team playing the Newport School at 4:30 p.m. For tickets, contact Anita Frelich, Social Events Coordinator, NAD, 814 Thayer Ave., Silver Spring, MD 20910, 587-1788 (V/TDD).

The Department of Sociology and Social Work is sponsoring a volunteer morning at Miriam's Kitchen to prepare breakfast for homeless people on Dec. 11. Carpools will leave West Office Building at 6 a.m. Interested people **4 On The Green**

may contact Barbara White at x5650 or on E-Mail (BJWHITE).

The Management Institute's Center for Management and Leadership has postponed its final fall 1989 panel presentation, "A Conversation with the Voice of Experience: Do Leaders Set the Trends or Follow Them?" The seminar will no longer be held on Dec. 6.

Charles Dickens' classic holiday tale, "Cricket on the Hearth," will be sign interpreted at Adventure Theatre on Sunday, Dec. 17, at 3:30 p.m. Tickets are \$4.50. For more information, contact the theater at Glen Echo Park, Glen Echo, MD 20812, 320-5331 (V), 10 a.m.-4 p.m.

Gallaudet's Public Relations Office is collecting information for the calendar of the Washington Consortium of Colleges and Universities. Events that might interest consortium members should be submitted on 11 X 14-inch paper and include the event, date, place, time, admission fees, whom to call for more information, and any additional dates the event will occur. Deadlines for submitting information for the calendars are Jan. 5 for the February calendar, Feb. 5 for the March calendar, and April 5 for the May calendar. For more information, call the Public Relations Office at x5505.

A call for papers has been issued for a national conference at Gallaudet June 7-10 entitled "Substance Abuse and Recovery: Empowerment of Deaf People." The event is being sponsored by the Gallaudet University Regional Center, College for Continuing Education, with Deafpride, Inc., the Psychiatric Institute, and the Alcohol and Drug Abuse Services Administration. Papers on research, model treatment and aftercare programs, techniques, issues, training, and practical applications relating to a variety of topics are being solicited. Program abstracts, limited to 200 words, must be postmarked no later than Feb. 15. For more information, contact Jackie Kinner, College Hall, Room 206, x5351.

Mary Ann Wells (second from left), a secretary at Gallaudet's University Center, works as a volunteer emergency medical technician for the Bladensburg Fire Department and Rescue Squad. Her husband, Ron (left), and their children, Bobby and Jennifer, also volunteer. (Photo by Tom Carter for The Prince George's Sentinel).

Anahita Lord (center) a candidate for a master's degree in rehabilitation, accepts this year's Sertoma Club scholarship from Jo Linder-Crow, chapter president, as Dr. David Martin, dean of the School of Education and Human Services, looks on.

Classified Ads

CLASSIFIED ADS are printed free as a service to Gallaudet faculty and staff. They must be submitted in writing only to *On the Green*, MSSD, Room G-37. Ads may be run for a maximum of two weeks, if requested and if space permits. The deadline for submitting advertisements is Friday, 10 days before the desired publication. Ads received by Friday, Dec. 8, will appear in the Dec. 18 issue.
